Pikes Peak Bluegrass

Our Pikes Peak bluegrass is our hardy bluegrass blend specifically formulated for the special conditions that exist in Colorado. Kentucky bluegrass has been the predominant choice for Colorado lawns for 100 years and our Pikes Peak blend is a great choice for a beautiful, durable lawn that will take a lot of punishment and keep coming back for more. We have specifically blended our Pikes Peak bluegrass with drought tolerance and disease resistance in mind. With hundreds of Kentucky bluegrass cultivars available, we have chosen five that are incredibly well suited to Colorado and its unique challenges.

Features:

- Good rich, green color
- Great durability
- Medium texture
- Unsurpassed recuperative ability
- Great wear tolerance
- Vigorous rhizome activity to help repair damage caused by drought, traffic or dog urine

Uses:

- Residential lawns
- Schools, Parks, Athletic surfaces
- Street-scapes
- Commercial landscapes
